BRIEF ABSTRACT OF LETTER.

Suggests that G.O.No. 3891-902/LB 112-08-2 dated 28th October 1908 may be suitably modified so as to permit of cheques being issued only for the District or municipal fund quota of the actual amount expended towards the Construction & repair of D.F dispensary

NOTES AND ORDERS.

Generally the sums to meet the D.F quota towards the construction and repair of D.F dispensaries are provided under cl IX Contributions in the D.F budgets. The order referred to above is in accordance with para 109 of the Rules under

R The drift of the Order G.O. 27 The work done & the Work for the D. Fds & other local funds is in the name of Contribution heads, and under Standing orders no Contribution work can be started until the amount of the whole Estimate has been prepaid. If after the actual Execution of the work there remains any unexpended balance that will be refunded. But such amounts are Cash receipts as the amounts prepaid are credited to the 'deposit' head, & expenditure also being debited to the same head. The balance outstanding under that head represents the amount to be refunded. Cheques for actual Expenditure to be given monthly will delay the proper accounting of Expenditure and moneys practically will have to be advanced from Provincial funds for the work which is not regular. The Continuance of the existing System seems to be unavoidable.

24 Two questions have been raised by the President in his letter dated 21st March 1910:— (1) That the contributions be recovered after the works are executed and (2) That contributions be recovered not on the estimated cost of the works but on the actual outlay incurred.

25 The Comptroller, the Chief Engineer and the Apt Secy Br. II are unanimously of opinion ~~of~~ that the contributions ~~the~~ from the Local and municipal Boards should be recovered in advance.

26 As regards the other question, the practice now prevailing is that any excess of cost incurred over the estimate is met entirely ~~of~~ out of ~~the~~ Provincial Funds and no contribution is claimed from the Local and Municipal Boards in respect of such excess and similarly where the actual cost incurred amounts to less than the estimate, no portion

of the contributions recovered is refunded to the Boards - This is said to be done for facility of accounts in the Comptroller's Office - The Comptroller is of opinion that as the differences between the estimates for works and the actual outlay on them are very small in many cases, it is not worth while to take any action for their adjustment - The Apl Secretary, Br II, however says that the contributions recovered are credited to the head "deposits" and expenditure also debited to the same head and that the amount to be refunded can be easily ascertained - He seems to think that there is no difficulty in making the necessary adjustment. It is doubtful whether the Local Boards will in any way be benefited by such adjustment - Instances of works for which contributions

A copy of the letter of the President of the Madura District Board may be sent to the other Presidents in continuation and they may be consulted as ~~regards the desirability~~ as to whether it is necessary to adjust the differences between the contributions recovered and the actual outlay incurred. There is therefore no facility to watch and adjust the differences between the amounts contributed and the actual outlay which, as already stated in this office No.3374/B-316 dated 2nd May 1910, are in many cases small and not worth the labour involved. The Presidents of the Local Fund Boards being in close touch with the Public Works Divisional offices can urge early execution of works and where works in full or in part are found unnecessary, it is reasonable that refund of the amounts contributed or portions thereof is claimed by the former as the contributions in such cases will be large.

Sir,

With reference to Government Order No. 3891-902/L.B. 112-08-2 dated 28th October 1908 R enjoining that after the estimates for the construction and repairs of Dispensaries are sanctioned, the President should issue cheques for the amounts equal to the quota payable from Municipal and District Funds in favour of the District Treasury Officer for credit to the Public Works Department, I have the honor to state that since an estimate represents only the probable amount that may be required for any work, the issue of a cheque before the bill or other intimation of the actual outlay incurred on

the

the work is received might be prejudicial to the interests of the Municipality or District Fund concerned.

It sometimes happens that after an estimate is sanctioned, the work is not put in hand during the year or for some years after owing to various causes; and even if it is carried out the actual outlay might fall short of the estimated amount. In such cases, the issue of a cheque for the contribution based on the estimate will, as already observed, be prejudicial to the Municipal or District Board unless the unspent portion thereof is subsequently refunded to the Board which would unnecessarily complicate the accounts.

I would therefore suggest that when estimates are sanctioned for the construction and repairs of Dispensaries, cheques may be ordered to be issued only for the District

or Municipal Fund quota of the actual amount expended for the work.

As necessary provision would have been made in the respective budgets in consultation with the Executive Engineer before the estimates are sanctioned, there will not be any difficulty in making payments as above on the score of want of Funds.

I have the honor to be,

Sir,

Your most obedient Servant,
